PopcornwithPanache

Who doesn't like a little sweet and a little salty all in one bite? We couldn't get enough of **Fabe's** latest launch: Cookie Corn. Imagine popcorn coated with cookie crumbs—that's right, we said cookie crumbs. With flavors like Chocolate Chip, Double Chocolate Chip, Peanut Butter (the staff favorite), and Oatmeal Raisin, we're hoping for individual popcorn dispensers to miraculously appear at our desks one day. And Fabe's never uses refined sugars or artificial preservatives in any of its products. We like that.
